INGREDIENTS

Pasturized cow's milk, pasturized sheep's milk, pasturized goat's milk, salt, chymosin, dried mint. **CONTAINS: MILK.**

PRODUCT DESCRIPTION

Halloumi is a fresh, un-ripened frying cheese similar to a clean, light and lactic tasting mozzarella if it were much firmer and slightly saltier. What makes Halloumi stand out even further is its very high melting point due to a naturally low acid content. Since it only softens significantly when heated but does not melt, Halloumi allows for grilling, frying, and cooking in a variety of styles usually reserved for meats or firmer vegetables and proteins.

ABOUT THE PRODUCTION

Halloumi typically produced with different mixes of milk types, but thankfully, Kynthos makes it simple to choose theirs by including a killer combination of cow, sheep, and goat milk. The result is a subtly complex taste well suited to stand on its own as equally well as it does when paired with other ingredients.
