

Sanitizing Tablets

EP409

The unique quaternary sanitizer in concentrated tablet form for use by commercial and institutional food service establishments for the easy and accurate preparation of effective sanitizing solutions required by the Health Department Regulations.

Where To Use

For bar glasses, dishes and all food contact ware, ice cream machines and beverage dispensing machines.

Dilution

Use 1 tablet per 1½ gallons of water.

Use warm water, between 80° and 120°

Directions

1 tablet per 1½ gallons of water provides 220 ppm sanitizing solution.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Prepare sanitizing solutions with warm water. Allow several minutes for tablets to dissolve before using.

FOR SANITIZING DISHES, GLASSES, AND UTENSILS IN RESTAURANTS, TAVERNS, ETC.

1. Scrape and prewash utensils and glasses whenever possible.
2. Wash with a good detergent, such as Bar Foam®, or compatible cleaner in first sink compartment.
3. Rinse with clean water in second sink compartment.
4. Sanitize in a solution of 1 TABLET per 1½ GALLONS OF WATER (220ppm) in third sink of compartment. Immerse all utensils for at least 1 minute or for contact time specified by governing sanitary code.
5. Place sanitized utensils on a rack or drainboard to air dry.
6. A fresh sanitizing solution must be prepared at least daily or more often if the solution becomes diluted or soiled.

DIRECTIONS FOR SPRAYING:

FOR SANITIZING FOOD PROCESSING EQUIPMENT, DAIRY EQUIPMENT, SINKS, COUNTERTOPS, REFRIGERATED STORAGE AND DISPLAY EQUIPMENT and other hard non-porous food contact articles and surfaces:

1. Wash and rinse all articles and surfaces thoroughly.
2. Apply a solution (SPRAY ON WITH HAND TRIGGER SPRAYER OR WIPE ON) of 200 ppm concentration and allow surface to remain wet for at least one minute followed by adequate draining and air drying.

KILLS HIV-1 (AIDS Virus) when used as directed for sanitizing
