At Hatfield there's a greater sense of purpose in everything we do. As an American, family-owned business with more than 120 years of history, we've always believed in doing the right thing, not the new thing. We're driven by a conviction that our business isn't just about quality products, but it's about our commitment to animal care and sustaining American family farms. We take care in raising our animals on family farms without the use of hormones, steroids or growth promotants. We are focused on sustainability for our planet, people and animals through our health and wellness programs, charitable giving, living wage and workforce development.
